

SLI Paint Palette July 2023

These 15 paints are all Sherwin-Williams colors, whose formulations can be matched and mixed at any brand paint store.

All of these colors could be used with one another as a base color and a trim color. Some combinations are better than others, but none are bad. This offers the Leaseholder the opportunity to mix and match to their taste while striving to keep the process as simple as possible.

These colors can also be used as an accent color for the front door, if desired.

SW 7036 - ACCESSIBLE BEIGE
