WARMING FIRES AND FIRE FEATURES IN SALISHAN

With the warm summer months comes an increase in outdoor enjoyment. For many this includes beach Bon-fires and warming fires on your Salishan Property. We often get many questions and concerns about fire safety. Please see the enclosed Open Burning Fact Sheet provided by our local Fire Department. This flyer can be found on their webpage at www.depoebayfire.com Please pay attention to the bottom right hand corner of this flyer under **Recreational/Warming Fires** and remember unless there’s a county wide burn ban in affect these are the guidelines required in our county. Please follow the rules on beach fires and know that if you see someone breaking these rules it is not Salishan who polices the beaches. If it’s an emergency call 911 or a non-emergency call Oregon State Police 541-265-5353.

When it comes to Fire Features or Warming Fires in Salishan on leasehold property it is important you understand that ALL Fire Features must be approved by the Architectural Committee. There is an Application for Fire features that must be filled out and submitted for approval. If you have not gone through this process then your fire feature is not considered an approved feature and you’ll need to apply.

Due to the dense vegetation in Salishan it is very important that we all work together to protect this property we love from potential fire hazards. Please contact the office for a copy of this application.

Have a safe and enjoyable Labor Day Weekend ~ Christine McGowan, Manager
